Headmaster's

For Voyages 2002

Address

The class of 2002 is the last class to graduate under the auspices of The College's founding governance model. Terry Davies, The College's founder, steps down this year as President of The College and passes the torch to others to continue the work he started here in the Calgary community in 1982. A new, expanded Board of Directors has taken up the challenge of guiding the school's destiny and that is at once both exciting and invigorating. As the C.E.O./Headmaster in this new model, I look forward with keen anticipation to working with Chairman, Michael Tims, Past Chairman, Tony Pullman and the rest of The Board to ensure that Terry's legacy continues to flourish and that the next twenty years are as noteworthy as the first. To Terry, I offer my love, my sincere appreciation for his support of, and faith in, me over the years and my promise to keep his dream alive.

Under Terry's stewardship, The College has grown from a Grade 7 to Grade 9 Programme of thirty- nine students to a full Junior and Senior High School Programme serving three hundred and fifty. It has been quite a voyage. Our growth as a learning community, however, cannot be viewed simply in terms of population. Today's buoyant private school market in Calgary virtually guarantees that school's which serve this market will be successful in attracting clients. The growth of the school must be looked at from a more philosophical pew. West Island College is one of Alberta's finest schools because it has remained true to its mission. W.I.C. is staffed by a faculty which cares about young people and has a passion for teaching and learning. The group also has a keen appreciation of, and respect for, the Founder's dream. This is as true today as it was twenty years ago when the dream was brought to Alberta. Because The College's mission is at the forefront of all that this group of professional educators attempts to do, the school succeeds. Our Founder's vision is clear and we, inspired by that vision, are there by blessed with a clear idea of where we are going and what we are doing. In these constantly and rapidly changing times that beacon lights our path and guides our work. I repeat, we are blessed.

The Class of 2002 leaves us and enters a larger theatre than that found inside the walls of W.I.C. This group of young people will find its way in the world out there because they have been well prepared for the challenges which lie ahead. Their alma mater has prepared them but, so too has the love and nurturing of their families. We are proud to call them members of our alumni.

A chapter in the history of The College is complete but, as we turn the page, we have every reason to believe that the book has many excellent chapters to come. Voyages 2002, chronicles one year in the life of the school. It has been a year of great accomplishments and great adventures and every student from Grade 7 to Grade 12 has contributed to the story and, therefore, deserves credit. Just as Terry leaves his dream to the caring, confident and competent hands of others leaders, the Class of 2002 leaves the school in the caring, competent hands of today's undergraduates and, as a consequence, the dream will live on.

Sincerely,

Jack A. Grant

Founder's

For Voyages 2002

Address

The 2002 yearbook will record that this year is my last as the President of the College. I wish it, therefore, to record that my dreams for each of you, the students of West Island College, are imbued with a strong, passionate and unflinching vision of your success*. This has not changed in twenty-eight years.

During the last months of this school year, I have attended a number of planning and visioning conferences, each dedicated to defining the WIC graduate of the future. It has been an opportunity to speak to and about my dreams. It has been an opportunity to share, once again, my passion for you, and therefore, for West Island College. It has been an opportunity to pass the torch and to charge the next generation of leaders with the trusteeship of my dream.

*"Producing leaders of moral conscience with relevant skill sets who will achieve personal and professional success, these are the cornerstones of a WIC education".

At 56, I look back on a career which can only be described as the story of a man who has passionately chased his dreams. It has been a great ride! My wish, for each of you, is to reach my stage of life and be able to look back and to say the same thing. I challenge you: Dare to dream and, more importantly, dare to chase your dreams!

Prefects

The 2001-02 school year brought a group of prefects into "power" that were unique, enthusiastic and prepared to be great leaders for the school...whatever that meant. Throughout the year we learned about what it takes to be a leader as we participated in the always successful grade 7 sleepover (who was that that fit in the garbage can?!), organized a dance to support the Red Cross after the events of 9/11, cooked and cleaned on the leadership weekend, made assemblies more efficient and always offered great resistance to the one thing that the teachers asked of us: lunch time supervision. Although we had some struggles along the way, we worked through them and these difficulties lead to the creation of new mandates for not only the Prefect Council, but W.I.C.A.A. and the Students' Council as well. We wish the best of luck to the 2002-03 prefects and remind them that the end of the year prefect dinner will come quickly. Thank you to Mr. Forrester for always trying to keep us on track, even at our morning meetings!

The year began with high expectations for house spirit and brand-new house ties. The goal was to achieve the greatest demonstration of house spirit that this school has ever seen. This year's activities kick off with our first spirit day at the Elbow Park community center; hockey, snow football and sledding, be it on sleds, or in Tupperware bins were the highlights of the day. It came with students cheering for their respective house's rank for house points during our week of suspense, (or maybe it was seeing their house captains subjected to pranks). It also came with the proud donning of the house ties by students in the hallways, locker rooms and Great Hall throughout the year, which helped fuel the competition and the fun. Next year's W.I.C.A.A. council should have a lot to work with. Thanks for a great year everyone, especially the W.I.C.A.A. council and special thanks to Ms. Armitage. Hope you had fun!

Words from the Prez...

Well this year has been one that will go down in the books as being the craziest year for a Students' Council Committee in W.I.C. history. You all know the story so I will not waste your time to repeat it again. However, despite all of the obstacles we have been through, the uniqueness and initiatives of all the members has directed the council this year toward being successful in all of our endeavors. Student's Council started the year off by trying a new DJ for W.I.C. dances. Westrax proved to be a success as W.I.C. students enjoyed the new music and spirit that was brought to dances. The council ran three superb spirit days with the right attitudes; we had fun, and for those of you who didn't, "TOO BAD". The Council ended the year off with a boom. For the first time in W.I.C. history the Council brought "Sumo wrestling" and "A Bungie Run" competitions into the dance. For those of you lost to the likes of Kirk Mason maybe one day you will live up to his greatness, but at least you will have the comfort of realizing you have already surpassed Geoff's. At this time I would like to extend my gratitude to all of the members of the Council this year and special thanks to its executives; Geoff Allan, Fiona McClean, Mrs. Hollinshead, and Mme. Oicle. This year could not have been as great as it was without all of you. Thanks!! For those of you who are becoming members of Student's Council in the near future, your newly defined mandate will hopefully provide you with the guidance and strength to pursue all of your endeavors. Good luck to all of you, and don't let that "Small-Fry" McCarthy kid bother ya!

Special Thanks goes out to the student council members who are always hard at work. Without them our school wouldn't have spirit days and dances to take out mind off stressfull school work.

Soul Food Review by Sara Ross

The year 2001-2002 was a terrific year for school spirit. Never before have the students of WIC showed their true colors so vividly. Student's Council and W.I.C.A.A. have done a fabulous job of increasing school spirit to an all time high through spirit days, dances, and "funky" days (like funky hair day) which proved to be a lot of fun for students and staff alike. GOOD JOB Kelsey and Kirk. Outdoor Education again proved to be an exciting and challenging time for students to test their outdoor skills and develop new ones. And who can forget Halloween and the great costumes people wore? All in all, this past year has been a great year for building school spirit throughout the grades.

Overview by: Salma Shivji

On September 14th our Jr house captains and Jr vice-president hosted our first Spirit Day. The day was full of relays, races and a scavenger hunt in and around Wic. The juniors had to run around the school trying to find the clues for the scavenger hunt. They also participated in some three-legged races and Red Rover on the field. In the gym they shot some hoops and raced their friends to see who could finish the relay first. In the Great Hall they had another relay race. The day ended with the Terry Fox Run. Overall, students and teachers enjoyed the competitions.

I realized that if it takes a lot of words to say what you have in mind, you should give it more thought. Trying to put down on paper what I'd like to say cannot possibly be accomplished. These past 3 years have been amazing and to not reflect on them fully would do them injustice. So instead, I'll end this bio with "Guys are like stars, so many to choose from but only one will make all your dreams come true." I love you Joey. Sheet hamster for life! Thanks for everything. I'll never forget it.

At any time at WIC, there have been ups and downs. To my family, my biggest thanks wo ai ni. I don't know where I'd be without my friends. TD, you're my 'otha brotha', get well soon. BW, you the genuine FOB. TF, *sniff*. AR, keep doing that walk you do. DN, don't steal from fat people. Mese you damn fine. GA, geek face! MB, touché. To the CS crew, fire in the hole! EB, GUY! To the rugby boys, who are we? Thanks to all the other peeps. Too much USL to list. Thanks to all my teachers for everything. Well I have to jet, I think my immigration has expired. I wish the best for everyone! Keep in touch

Lisa Heilik

Sometimes we walk, sometimes we run away, but I know no matter how fast we are running somehow we keep up with each other.

Meredith Levy

Thank you to my friends and family.

I hate cursive and I hate all of you. I'm never coming back to school! Never. - Billy Madison

Brad Marcotte

My mommy made me get a haircut for this picture. In six years here, I have grown a foot, gained 100 lbs, been cut from floor hockey, captained the rugby team, thrown erasers, used air freshener as deodorant, watched the field shrink smaller than the gym, seen cafeteria prices rise, been subjected to Marshall's gas, killed horses, stocked Auto parts, recognized Mr. Grants fine taste in cars, but I have never served a Friday detention or taken Mr. Salberg to school. Thank you to everyone who has made my times here memorable. For the good or the bad. BSB forever.

Kirk Mason

For the past 6 years WIC has brought me fond memories and great friends. I have overcome obstacles at WIC, that I was once not capable of conquering. With the support of those of you around me as my driving force, your actions have undoubtedly allowed me to develop as a person and as a leader. I would like to thank the student community for giving me the opportunity to work with student's council as president. The council was very successful and driven by the member's commitment to their positions. I hope that WIC produces fond memories for all of you as it has done for me. Good luck to you all in your future endeavors!

Patrice Mason

From being at WIC for six years I have become the person that I am today. I have matured a great deal, gotten my priorities straight, and have learned to appreciate the little things in life. I couldn't have achieved any of this without the supportive faculty, all my peers, my family and of course my ladies: Jenner, Hayley, Lisa, and KATIE - Who have always been there for me through good and bad. You guys mean the world to me! Drew you are an amazing guy! JZ, MM, CB, MB, BM, MS, NG, CC - we had some good times! And last but definitely not least thanks to my bro Capt. Kirk for being you, you are the stuff boy ...I luv ya!

Michelle McGuiness

Well all good things come to an end, such as my time at WIC. So thanks to Mme. Muller, Pierre, Ms. Snowden, Mrs. Hollinshead, Mr. McCarthy, Mr. Smith, Mr. Forrester for helping so much. Mere, Morgan, Stacy, Carmen, JU and Cheryl, Thanks for the good times. Word of the wise: Don't park in handicap spaces, "Brevity is the soul of wit" according to Shakespeare but a quote will have to do "History will be kind to me for I intend to write it." - Churchill So with that optimistic tid bit, we're off to do bigger and better things. I hope.

Diane Nguyen

Thank you to everyone who made my three years here so much fun! Good Luck ...Take care!

Hayley Owens

It feels like yesterday we were in grade 7, and to us the grade 12's looked so big and so cool!! I wonder if we look like that to them now. I doubt it!! Thank you to all the great teachers at WIC, to my peers for always being there, and to my parents who provided the funds. Good luck to everyone in the future and please stay in touch. How cool would it be to have a 10 year reunion?? We'd probably all look the same except have clearer skin and be 10 pounds heavier! That which does not kill us, makes us stronger. - Stella Beer, Egypt

Will Metcalfe

It's been 6 years (1800 days!) of getting up too early and putting on that UGLY kilt and tie. But now, I AM FINISHED! Matt Scrivens

Wow, schools all over! It seems like just yesterday that I was starting here in grade seven, now we're on the verge of being adults! It's scary considering the maturity level of some of us that we are now allowed to vote, drive cars at high speeds, and legally enter into "certain establishments". But whether we want to admit it or not, we are all at the end of a big era in our lives, and are about to debark into the unknown world of being an adult. Thanks to the people at WIC that helped me prepare for the anticipated journey ahead. I'm sure it'll be an awesome ride.

"Be who you are and say what you feel, because those who mind don't matter, and those who matter don't mind." -Dr. Seuss So long and thanks for everything. Your friend in life and high school, the calm and gentle, Andrew Ross.

Kate Sloan

I'm graduating from school at the mental age of 7 1/2...Should that REALLY be allowed? Thank-you WIC for getting me through the last 3 years, that's a task I wouldn't wish upon many people. Shelagh, I apologize for the blue-eye club in grade one, thanks for being such a great friend anyways. Neil, I'll never find a better partner in crime, or another person with such an obsession with meatball subs (egh...). Finally, I would like to thank my school uniform for allowing me to display the battle-wounds my knees received while playing soccer.

Ainsley Soutiere

As they say "Life is for living" and as they also say, "You're a long time dead." The bottom line is that no one is going to live your life for you...Go outside and see the world for yourself. Get dirty, stub your toes, make mistakes, get lost, ruin your best clothes, break some hearts, and get stung by strange insects. Then when your time on this planet comes to an end, you can look back on your life, smile at your beautiful grand kids, and say "That sure was fun!" -Bradley Trevor Grieve

Amber Streukens

I'm torn/I'm torn/rejecting outfits offered me/regretting things I've worn/when I was still, I'd be lying if I said these last four years at WIC went by quickly, but I'm still glad I went through with it. Starting at Grade nine and lasting to grade twelve was a huge accomplishment. I owe so much to my best friend M.P who kept me working even when I didn't like quitting. Even though working at school and at Safeway was a huge challenge, I don't regret a second of it. Thanks a lot to everyone and good luck to the class of 2002.

"The animals do not know they are on Candid Camera; they know nothing about this framing beyond a possible nostalgia for more open spaces. It is this framework, then, that makes the wild animals performatively different, say, from the pastured cows one might see in the open fields en route to the park" -Bert O. States

I enjoyed my unpopular and formative year at WIC. It had the flavour of those thin chocolate mints left on your pillow by a faceless hotel maid. Thank you mom and dad for everything.

Jennifer Tomalty

I can't believe in a few months my 6 year journey through WIC will be over. It's been an amazing trip, and I'd like to thank my parents and teachers for believing in me. Brad, don't forget our pact. Brent, you'll get your meatball sub soon, I promise! Lisa, Hayley and Michelle, you girls mean the world to me. Girl's nights always! Cam, I'll always be your big sister. Trice, my rock, thank-you for everything. I love you so much! Butt-Chuck buddies forever! Thank-you everyone for six years of amazing memories. I'll never forget you guys! "Well it's hip..."

Thanks to my family. I'd like to Congratulate Bruce for surviving all the way from pre school to High School with me. I'd like to thank Tyler for reminding me that no one can "make" me wear pants. Its been great knowing Tom, cuz he's a so-gwa. A special thank to Geoff and Mr. Allen for all the Canadian Tire money. A sidenote to Wes: Long live the Fonce!
